

SEIZE THE NIGHT

Pages from the diary of Tejas

Evolve Back Kuruba Safari Lodge, Kabini, June 2010

Tejas visits our resorts in Coorg and Kabini and shares with you some of his uplifting experiences. Join him as he immerses himself in the activities at our two resorts, and enjoy them with him, virtually!

Tejas Joseph resides in Auroville near Puducherry and is part of a consulting group engaged in creating viable models of decentralised lighting (using solar energy) for off-grid Indian villages. Tejas travels a lot in the course of his work and feels a deep connection with the history and ethos of the places he visits. He is a keen observer of the winds of change that are now blowing across the physical, cultural and social landscapes of India and seeks to capture its effects in his articles, ever believing that the journey is as important as the destination, the travel as rewarding as the arrival!

Feel free to write to him at pjtejas@gmail.com if your interests or work coincide with his.

Night Trails: an unusual 'night cap' for nocturnal nature lovers

As night descends upon the Kabini landscape a whole world of nocturnal life emerges. For those of you who are not lured by after-dinner television or emails then set off to explore nature around the resort at night, armed only with flashlights and a sense of anticipation and wonder.

Our naturalists will skillfully escort you around the areas just outside the resort and by the Kabini's waterline that harbor a small universe of creatures that do most of their living at night. You will encounter the fascinating nocturnal world of beetles, spiders, owls, moths, lizards and even plants as you go about this unusual night expedition.

Recommended for all nature lovers but particularly for the adventurous and the curious, this is an experience that is as unique as it is educative.
